

Richard's NFL Playoff Pool

Quick Start Rules

Pool #1: Pick the Score | Pool #2: Pick the Lines | Perfect Score Bonus

The Basics

What you pay: One entry fee covers all 4 playoff weeks. See app header for current season fee. How to pay: E-transfer: gammoneer2b@gmail.com Password: nflpool Include your name in the message. Access code: You receive a unique 6-character code after payment. Enter it on the app to access your picks. DO NOT share your code.	15 prizes total: Pool #1 prizes: #1–#10 Pool #2 prizes: #11–#15 Perfect Score Bonus: separate pot Prize value: All 15 prizes equal value. 90% of total entry fees ÷ 15 prizes. 10% reserved for Perfect Score Bonus. Both pools included: Every paid player automatically plays both Pool #1 and Pool #2. No separate entry needed.
--	---

The One Rule That Matters Most

All picks lock Friday 11:59 PM PST before that weekend's games. No exceptions.

Both Pool #1 and Pool #2 lock at the same time. Enter picks early. Edit freely until the deadline.

Pick windows by week:

- Week 1 (Wild Card): 5 days — Monday after regular season ends through Friday
- Week 2 (Divisional): 4 days — Tuesday through Friday (Wild Card has Monday night game)
- Week 3 (Conference): 5 days — Monday through Friday
- Week 4 (Super Bowl): 11 days — Monday through Friday two weeks later

 Pool Manager support ends 24 hours before each deadline. Do not wait until the last minute.

Pool #1: Pick the Score

Predict the final score of both teams for every game in that week. Higher predicted score = your winner pick.

- All score fields must be filled in — you cannot submit partial picks
- Any numbers are valid once submitted — picks stand as entered, no changes after deadline

- Your Pool #1 scores automatically calculate your Pool #2 picks when saved

Pool #1 Prizes (#1–#10):

Weeks 1, 2, 3 — Two prizes each:

- Most Correct Winners — most game winners correctly predicted
- Closest Total Points — predicted total closest to actual combined score

Week 4 (Super Bowl) — Four prizes:

- Prize #7: Correct Super Bowl Winner
- Prize #8: Closest Super Bowl Total Points
- Prize #9: Most Correct Winners — all 13 games across all 4 weeks
- Prize #10: Closest Total Points — all 4 weeks combined

Pool #2: Pick the Lines

For each game make three picks using the betting lines entered by the Pool Manager. Pool #2 picks are hidden from other players until the Friday deadline passes.

Pick 1: Winner (2 pts) Which team wins outright? Auto-set from your Pool #1 score. Edit in Pool #2 if you wish. Pick 2: ATS (3 pts) Against the Spread. Does the favourite win by MORE than the spread, or does the underdog stay within it? Spread ends in .5 so no ties. Pick 3: O/U (3 pts) Is the combined score Over or Under the line? Line ends in .5 so no ties.	Max points per game: 8 Wild Card (6 games): max 48 pts Divisional (4 games): max 32 pts Conference (2 games): max 16 pts Super Bowl (1 game): max 8 pts Pool #2 Prizes (#11–#15): One prize per week (most points) Plus Grand Prize (most points all 4 weeks combined) Lines set by PM: Entered early each week. Locked in for the entire week. No shifting after entry.
--	---

Perfect Score Bonus

Predict the exact final score of any game in Pool #1 — both teams correct to the exact point.

10% of total entry fees is reserved as the Perfect Score pot. After the full season, the pot is divided equally by the total number of hits across all players all season.

Example: Pot = \$90. Richard hits 2 exact scores, Dave hits 1. Total = 3 hits. Each hit = \$30. Richard gets \$60, Dave gets \$30.

If nobody hits a perfect score all season, the pot rolls back into the 15 main prizes equally.

Perfect Score winnings are in addition to prize winnings — never instead of.

Tiebreakers — How Ties Are Broken

Ties are broken step by step. At each step the player(s) closest wins and all others are eliminated. The process continues until one player remains or all steps are exhausted.

- “Closest” always means absolute difference — 5 over or 5 under is the same (5 away)
- Pool #2 tiebreakers are applied first, then Pool #1 tiebreakers
- The final tiebreaker for every prize is the submission timestamp — earliest submission wins
- Submitting your Pool #1 picks early automatically gives you an early Pool #2 timestamp too
- If all tiebreakers are exhausted and players are still exactly tied → share prize equally

The tiebreaker system is designed so that a true unresolvable tie is extremely rare. See the Full Rulebook for the complete step-by-step tiebreaker chain for every prize.

RNG Rule — Missing Picks

 **If you have zero picks saved after the Friday deadline, the app automatically generates random picks for you.**

Generated scores range from 10–45 per team. RNG picks count as your official entry. A  dice icon appears next to your name so all players can see which entries were system-generated.

There is no excuse for missing a submission — every week has a defined pick window. Enter picks early.

The Golden Rule

Enter your picks early. Edit freely before the Friday deadline. Enjoy the pool.
