The Four Pools at a Glance

Pool #1 — Pick the Score (Visible)

Predict the exact final score of every game, both teams. Your picks are visible to all other players immediately after you submit.

Scoring (each round):

- Most Correct Winners → Prize #1 (WC), #3 (Div), #5 (Conf), #7 (SB)
- Closest Total Points → Prize #2 (WC), #4 (Div), #6 (Conf), #8 (SB)
- Season Grand Prize → Prize #9 (most wins all rounds) + Prize #10 (tiebreaker: closest combined total all rounds)

Pool #2 — Pick the Score (Blind)

Same prediction as Pool #1 — your Pool #1 score picks double as Pool #2. The difference: Pool #2 picks are hidden from all players until the deadline for that round passes.

Scoring (each round):

- Most Correct Winners → Prize #11 (WC), #13 (Div), #15 (Conf), #17 (SB)
- Closest Total Points → Prize #12 (WC), #14 (Div), #16 (Conf), #18 (SB)
- Season Grand Prize → Prize #19 (most wins all rounds) + Prize #20 (tiebreaker: closest combined total)

Pool #3 — Winner / ATS / O-U

Auto-populated from your Pool #1 score picks. No separate entry needed.

3 picks per game (derived from your scores):

- Winner — which team your scores say wins
- ATS (Against the Spread) — does your predicted margin beat the spread?
- O/U (Over/Under) — does your predicted combined total beat the line?

Scoring (each round):

- Most Correct Picks → Prize #21 (WC), #22 (Div), #23 (Conf)
- Season Grand Prize → Prize #24 (Super Bowl round) + Prize #25 (Season Overall — most correct picks all rounds combined)

Pool #4 — Super Bowl Prediction (One-Time Pick)

One-time entry before the Wild Card deadline. Make 5 picks about the Super Bowl:

Pick	Points if Correct
AFC Team in Super Bowl	Used for pot eligibility
NFC Team in Super Bowl	Used for pot eligibility
Favourite (−3.5 line)	2 pts
Outright Winner / ATS	3 pts
Over / Under	3 pts
Maximum score	8 pts

Pot Eligibility: You must correctly pick BOTH the AFC and NFC team to be eligible to win Prize #26 (the Super Bowl Pot). Everyone scores points regardless of team picks, but only players who got both teams right can win the pot.

Tiebreaker: Earliest submission timestamp wins. If no player is eligible, the pot rolls into the 25 main prizes.

RNG for Pool #4: If you miss the Wild Card deadline, RNG will automatically assign random Pool #4 picks for you — just like Pools #1, #2, and #3. You can still change your RNG picks before the deadline.

Perfect Score Bonus

If any player correctly predicts BOTH teams' exact scores for every game in a single round, they win a separate bonus pot.

- Only one player can win per round — the bonus is not shared
- If nobody gets a perfect score, that round's bonus rolls over to the next
- Unclaimed bonus at the end of the season rolls into the 25 main prizes
