

RICHARD'S NFL PLAYOFF POOL LXI

QUICK REFERENCE SUMMARY | 2026/2027 Season

Pool #1: Pick the Score (Visible) | Pool #2: Pick the Score (Blind) | Pool #3: Winner / ATS / O-U

HOW IT WORKS

Every paid player competes in all three pools simultaneously across all 4 rounds of the NFL Playoffs (Wild Card, Divisional, Conference Championships, Super Bowl - 13 games total). One entry fee covers everything.

Pool #1 - Pick the Score (Visible)

- Predict the exact final score of both teams for every game each week.
- Your picks are visible to all other players immediately after you save them.
- Your Pool #1 scores automatically populate your Pool #3 Winner / ATS / O-U picks.

Pool #2 - Pick the Score (Blind)

- Same prediction as Pool #1 - both teams' exact scores for every game.
- Your picks are HIDDEN from all other players until the Friday 11:59 PM PST deadline passes.
- Pool #2 is completely independent from Pool #1 - separate saves, separate timestamps.

Pool #3 - Winner / ATS / O-U (Blind)

- For each game: pick the outright Winner, the Against the Spread (ATS) result, and Over or Under.
- Auto-filled from your Pool #1 scores but can be edited independently before the deadline.
- Hidden from all players until the Friday 11:59 PM PST deadline.

ENTRY & PAYMENT

- **gammoneer2b@gmail.com** E-transfer to:
- **nflpool** E-transfer password:
- Include your full name in the payment message.
- Entry fee is set by the Pool Manager each season - covers all 4 weeks and all 3 pools.
- After payment is confirmed you receive a unique 6-character access code - keep it private.
- Deadline: payment must be confirmed at least 1 hour before the Week 1 deadline.

DEADLINES - THE ONE RULE THAT GOVERNS ALL

All picks lock at Friday 11:59 PM PST before that weekend's games.

This applies to Pool #1, Pool #2, and Pool #3. No exceptions.

Pick Windows:

- Week 1 (Wild Card - Jan 16-18, 2027): Monday 12:01 AM - Friday 11:59 PM PST (~5 days)
- Week 2 (Divisional - Jan 23-24, 2027): Tuesday 12:01 AM - Friday 11:59 PM PST (~4 days)
- Week 3 (Conference - Jan 31, 2027): Monday 12:01 AM - Friday 11:59 PM PST (~5 days)
- Week 4 (Super Bowl - Feb 14, 2027): Monday 12:01 AM - Fri Feb 13 11:59 PM PST (~11 days)

Editing Picks:

- You can edit picks unlimited times right up to the Friday 11:59 PM PST deadline.
- Every time you save picks, your **TIMESTAMP** updates - earlier saves give you tiebreaker advantage.
- After the deadline, picks are permanently locked - no changes possible.

 **The Pool Manager cannot guarantee support in the final 24 hours before any deadline.**
Report technical issues MORE than 24 hours in advance.

PRIZES

25 total prizes, all equal shares. Prize amounts depend on total players and entry fee for the season - live amounts always shown in the app.

- 90% of total entry fees is split equally across all 25 prizes.
- 10% is set aside as the Perfect Score Bonus pot.

Prize Breakdown:

- Prize #1-#10: Pool #1 (Pick the Score, Visible) - 2 prizes per week, Weeks 1-3; 4 prizes in Week 4
- Prize #11-#20: Pool #2 (Pick the Score, Blind) - mirrors Pool #1 structure exactly
- Prize #21-#25: Pool #3 (Winner / ATS / O-U) - 1 prize per week for all 4 weeks + 1 Grand Prize

How Each Prize is Won:

- Pool #1 & #2 weekly prizes: Player whose total point spread across all games that week is closest to zero (i.e. most accurate combined score predictions).
- Pool #3 weekly prizes: Player with most correct picks (Winner + ATS + O-U points) for that week.
- Pool #3 Grand Prize (#25): Player with most combined Pool #3 points across all 4 weeks.
- Tiebreakers: timestamp of last save (earliest wins). Final tie = prize shared equally.

PERFECT SCORE BONUS

Any player who predicts the EXACT final score of any game in Pool #1 or Pool #2 (both teams' scores exactly right) earns a Perfect Score hit.

- 10% of total entry fees is the Perfect Score pot.
- Pot is split equally by total number of hits across all players, all games, all season.
- A player can earn a hit from Pool #1 AND Pool #2 for the same game (counts as 2 hits).
- Multiple hits across weeks and games are possible - no limit.
- If nobody hits a perfect score all season - the full pot rolls back and is divided equally among all 25 main prizes.
- Perfect Score hits are visible to all players in real-time in the app. Final payout calculated after all 13 games are complete.

RANDOM NUMBER GENERATOR (RNG) RULE

 **If you have zero picks saved when Friday 11:59 PM PST arrives, the app automatically generates random picks for you. RNG picks are your official entry for that week.**
A 🎲 dice icon next to your name in the app means RNG was applied.

RNG applies only when a submission is completely empty. If you entered anything at all - it stands. Enter picks early to avoid RNG entirely.

KEY RULES TO REMEMBER

- One entry fee per player - covers all 3 pools and all 4 weeks.
- DO NOT share your access code - you are responsible for all picks made with it.

- Picks stand as entered - the Pool Manager will NOT change picks due to mistakes.
 - No deadline extensions - treat them as permanent. Plan accordingly.
 - Pool #1 picks are always public immediately. Pool #2 and Pool #3 picks are blind until Friday deadline.
 - Enter picks early each week. Edit freely. The timestamp of your LAST save is the tiebreaker.
 - All prize amounts, standings, and pick tables are shown live in the app at all times.
 - Pool Manager makes all final decisions on disputes - fairly and based on app data.
-
