THE THREE POOLS

Pool #1 — Visible Picks → Prizes #1–10

- Predict the score of every playoff game each round.
- Your picks are **VISIBLE** to all participants immediately after submission.
- Ranked by: most Correct Winners → lowest Total Points Differential → Tiebreaker Chain.
- Top 10 players at season end win Prizes #1–10.

Pool #2 — Blind Picks → Prizes #11–20

- Same score predictions as Pool #1 — but your picks are **HIDDEN** until Friday 11:59 PM PST each weekend.
- Same ranking method as Pool #1. Top 10 players win Prizes #11–20.
- Ranked completely independently of Pool #1. You can win prizes in **BOTH** pools!

Pool #3 — Super Bowl Prediction → Prize #21

- One-time entry during **Wild Card Weekend ONLY**. No changes after the deadline.
 - Predict: AFC Champion, NFC Champion, Declared Favourite, ATS Winner, Over/Under.
 - Scoring: Super Bowl Winner = 2 pts | ATS = 3 pts | Over/Under = 3 pts | MAX = 8 pts
 - To qualify for Prize #21: you must correctly predict BOTH the AFC Champion AND NFC Champion.
 - Among eligible players, the participant with the highest Pool #3 point total (max 8 pts) wins. Timestamp tiebreaker; shared pot if identical.
 - If no participant correctly predicts both teams, Prize #21 pot reverts to main prizes.
-

SUBMISSION DEADLINES

- All picks must be in **BEFORE** Friday 11:59PM before the first game of each round. No late entries.
- You may update picks before the deadline; each save updates your timestamp. Picks lock at the deadline — no changes after.

- Pool #3: Wild Card Weekend only. Window does not reopen.
- Pool Manager support cutoff: Thursday 11:59 PM PST each playoff weekend.

PRIZE STRUCTURE

Step 1: Deduct \$2/player (Pool Manager-set) → Pool #3 Pot (Prize #21)

Step 2: Deduct 10% of remainder → Perfect Score Bonus Pot

Step 3: Remaining 90% ÷ 20 = 20 equal main prizes

Prizes #1–10: Pool #1 top 10 | Prizes #11–20: Pool #2 top 10 | Prize #21: Pool #3 winner

Example (45 players × \$27 = \$1,215): Pool #3 pot \$90 → Remainder \$1,125 → PS Bonus \$112.50 → Prize Fund \$1,012.50 → Each prize: \$50.63

TIEBREAKER RULES (Pool #1 and Pool #2 — Applied Independently)

Primary: Most Correct Winners (cumulative all rounds)

Secondary: Lowest Total Points Differential (cumulative all rounds)

If still tied — Standard Chain (all prizes except #7 and #17):

- Most recent round: more Correct Winners wins; if tied, lower Points Differential wins
- Lookback newest-to-oldest: Week 3 → Week 2 → Week 1
- Earliest Wild Card Weekend timestamp → Prize Share

Prize #7 (Pool #1) and Prize #17 (Pool #2) — Alternate Chain:

- Lookback goes OLDEST-TO-NEWEST: Week 1 → Week 2 → Week 3 → Week 4
- Earliest timestamp → Prize Share (same as standard)

PERFECT SCORE BONUS

- Awarded to anyone who correctly predicts the **exact final score of both teams** in any single playoff game in Pool #1 or Pool #2. Can be hit multiple times across all 13 games all season long.
- Bonus = 10% of total pool minus Pool #3 pot. Split equally among all Perfect Score holders.
- No Perfect Scores: entire bonus rolls into the Main Prize Fund (each prize increases ~11%).

RANDOM NUMBER GENERATOR (RNG)

- If you submit NO picks for a round (ALL fields empty at deadline), the system auto-generates scores between 10–45.
- Even one score entered = RNG NOT triggered. Applies to both Pool #1 and Pool #2.
- RNG scores are treated identically to manual picks for all ranking and prize purposes.

POOL MANAGER

Pool Manager: Richard Biletski | Co-Manager: Dennis (backup)

- Pool Manager's decisions are final on all disputes and rule interpretations.
- Rules may only be amended before Wild Card Weekend submissions open.

QUICK TIPS

- Submit picks early — you can update them any time before the deadline, but each save updates your timestamp (early timestamps win tiebreakers). Picks lock at the deadline.
- Wild Card Weekend: submit Pool #1, Pool #2, AND Pool #3 picks before the first game.
- Double-check your picks after submitting to confirm they saved.
- You can win in BOTH Pool #1 and Pool #2 — they are fully independent!
